SENSATIONAL BASEBALL PLAYED: TWO NO-HIT GAMES IN AFTERNOON

Weiss Sets Fashion for Southpaws By Beating Krackajacks, and York, New Soldier Flinger, Gives Seventh Its Sixth Straight By Copping All League Pitching Records; Graham Wins Again.

By "BECK."

Sunday, who would be "a real sensation." They made good all right for the pitching of James York, formerly of Newton, Kas., against the Everybodys in the second game, Sunday afternoon, at Rio Grande park, was nothing short of sensational. It was as fine an exhibition of pitching as has ever been seen in El. Paso, according to old time lans, and that is saying a lot for many men who have made good in the big leagues have displayed their wares here. The Seventh-Everybodys game followed a no-hit no-run performance by "Grasshopper" Weiss but there was no comparison between the two contests. The soldiers beat the clerks, 1-0, but the game has been protested by manager H. Levingston.

From the time umpire Ebbs called "Play ball" until he permitted Gallagher to take his base in the ninth inning, the game had the fans on edge. "Buster" Gillett pitched a great game and held the soldiers scoreless until the ninth but only one clerk got to first base and that was on an error, a drive from Eaton's hat hitting Martin's glove and rolling up his arm. York also broke all strikeout records of the league. In the regulation seven innings, he equalled the no-hit no-run strikeout record of Clarence Duncan by whiffing 16 but he established what is believed to be a semi-pro record by fanning 12 consecutive batters. York appeared

lieved to be a semi-pro record by fanning 12 consecutive batters. York appeared to get better as the game progressed and he smilingly turned back five of the six men to face him in the eighth and ninth on strikes. His control was re-

York is an army reserve man who served with the Seventh in the Philippines but went on the reserve a year ago. With his catcher, Gallagher, he took a job at Newton, Kas., and played Sunday ball. Two weeks ago he fanned 27 men in a 16-iming game so it will be seen that his performance was no fluke. It is understood that the Detroit Tigers are angling for this pitcher. Beaumont, of the Texas league, is after Clarence Duncan, the other star flinger of the soldier team.

As usual, the morning clash between the Feldmans and Walz was a corking

good exhibition. These teams always put up a great battle when they meet in a morning game. "Hooks" Graham had it on Pablo Soto and the Feldmans won, I to 0. Graham allowed only two hits while Soto was found safely four times. "Grasshopper" Weiss faced the Krackajacks in the first afterneon game, pitching for the bakers. Weiss set the fashion for southpaws and held the hardware men without a hit or a run. The only black spot on the record was in the "first hase on balls" column and two Krackajacks got passes. The bakers won, 4 to 0.

The only runs of the game were made in the bakers' half of the third. It was a clean single but Young let it get away from him and elow relays and bad throws let Meason make the circuit with two men ahead of him.

WINDUP OF BILL

But the real fireworks came in the

last game. This was looked upon as

Seventh infantry had won five straight

and were out for the sixth while the Everybodys, to keep within striking distance of the bakers, had to win. When York was annunced as the army pitcher, the fans served surprised that Lieut. Bertram would take any chances with a new man in so important a game. But Bertram was taking no chances. That was evident when York began bending them over in the first inning. He put them wherever catcher Gallagher wanted them and his control was remarkable. Barker, Lyman and Klineman were retired on strikes so fast that they wolked away from the plate rather daged. It may be remarked that York 'got in a hole' only once in the game and then it was the ninth inning when the call on Barker was 'three and twe.' But Barker fanned. An erfor by Cunnangham let Bybee take second. York failed to connect and fanned.

Thereafter it was a real struggle. The only clerk to reach first base in

Berry Some Baserunner.

The Feldmans got their only tally in the second. With one down. Berry walked. He stole second and liked it so well that he proceeded to purioin third while Soto held the ball. Berry had them guessing, for he threatened to steal home also. It wasn't necessary, however, for Ferry clouted out a three-hagger. Percy tried to come home on Mulkey's grounder to Caro, but was mailed at the plate.

The great work of Berry at third for the Feldmans and a catch by Armenia-rex in deep center in the fourth, when Longmyre hit what looked like a sure homer, were the fielding features. Berry covers a world of ground and is, by long odds, the star hoteorner performer of the league. Percy, the other newcomer to the Feldmans, was also a star performer. He had only two fielding chances, but his catch of Chapparo's long drive in the first was off his shoelaces, while he got on base every time at bat. His first hit was a triple. Then he connected for a single and, third time up, he reached the base through

"For 49 years-since the National league began-I have seen every star that ever flashed in the baseball firmament," added Temple. "There were ment, added Temple. There were many brilliant ones in the past; there are scintillating performers today. But none can compare with peerless Wagner. He is the super-hall player—the most wonderful of them all.

"Some few players of past or present may have shaded Wagner in one or another department of the game—but none can compare with him in all around ability.

around ability.

"Wagner never was ranked among the graceful shortstops—but who can name a player of the present or past who really outshone the amazing Honus as a ground coverer? Wagner may be clumsy and awkward in his movements, yet today, at the age of 42, he covers more ground than 20 percent of the short fielders in the game. Honus Led 1915 Shortstops.

"Wagner takes rank against the
greatest batsmen in history. When he

"Wagner, in the heydey of his career, had few equals as a basecunner. Big and awkward, it seemed like folly for him to attempt the theft of a bag—it looked like sure death. Yet, if you peruse the baseball records, you will find that Wagner's base stealing average, covering all of his 29 years as a big leaguer, shows something like 40 piffers a season—a record superior to that turned in by 35 percent of the men who have played the game at one time or another during the last 49 years.

"What can illustrate better the marvelous base running skill of the grand old man of baseball than the 1915 records—the statistics which show that

Carey, the league champion.

Never 'Pulled' a 'Boner.'

"Wagner, in 10 years as a big leaguer never 'pulled' a 'boner,' he never has made a mental foozle. Wagner never was press agented as being an exceptionally brainy player—but who is his superior in mentality? One hears much about the braininess of Cobi, of Evers, of Collins and of the others. But each has at some time or another, slipped a mental cable—made an error of the head. But Wagner is the most gentlemanly player the diamond game has produced. He has caused the umpire less trouble than any other performer. For 20 years he has been a star, for a score of years praise and honors have been showered upon him. But they never have turned his head. Concelt is foreign to Wagner's makeup.

The grand old German realizes that he is paid to play hall to the best of his ability; to play with all the power and skill that is his, And so has he played. Day after day, year after year, he has been out there on the diamond giving the best that is in him to his employers; faithful, bardworking, wonderful Honus Wagner!

"Hayed Every Position."

Played Every Position.

"I have seen him play every position on the diamond—and play each perfectly. He started as an outfielder and then was shifted to the infield. In emergencies, he was moved from one corner of the diamond to the other. On many occasions earlier in his career he has gone behind the bat.

"Back in 1902 or 1902, when the pirate pitching staff was shot to pleace by injuries and double headers the manaster was in a quandary as to whom he should pitch in a certain game,

he pitched again—and once more he was the victor.

Oh yez Ty Cobb is a wonderful player; so are Collins, Daubert, Maranville, Lajole, Speaker and Evers; so were Anson, Delehanty, Lange, Pfeffer, Williamson and the others. But Wagner—the grand hitter, the amazing fielder, the startling base-sunner, the brainy, hard working, matchless Wagner—he is King of them all; the greatest player the diamonder game has produced; a player whose like never will be seen again."

COMMERCIAL league managers voted, last week, that Harry Barker would not have to stand suspended for three games because of his tactics a week ago and he was back in the game on Sunday. Do the Commercial league managers want the support of the public? Do they think for one minute that the fans are going to patronize games where vdyism is permitted on the field; Barker's suspension for three games was quite fair and he should have been kept out.

AGAIN on Sunday we had an instance of rowdyism on the field which should not be permitted to pass unnoticed. This was immediately after the second afternoon game when Clyde Woollen, still wearing the uniform of the Krackajacks, created a scene in front of the grandstand, in which there were still many women fans, because the final decision of umpire Ebbs on Gallagher's pass did not suit his taste. Will the managers take another vote and forget this, too?

COMMERCIAL league is supposed to be run on the lines of organized baseball but the players are getting away with stuff which no pro-fessional would even attempt. The games now are exciting and the patrenage is excellent, a big crowd attending on Sunday afternoon despite a threatening rain. If the managers want this patronage to continue, they will have to forget their little cliques to keep players from deserved punishment and play the game clean.

EVERY baseball fan who attended the Sunday afternoon games got his money's worth and then some. Two no-hit, no-run games in one

afternoon is "some stunt." Moreover, there was no fluke about either game. The next time Jimmy York pitches for the Seventh, there will unquestionably be a record crowd for York has the stuff which qualifies players for fast company. Sight must not be lost, too, of the good work of Weiss in the first afternoon

DAVENPORT of the Browns seems to be after some of the "iron man" records made in major league baseball by Joe McGinnity when he was with the Giants. On Saturday, Davenport pitched both ends of a doubleheader at St. Louis, beating the Yankees both times. He allowed only four hits and one run in the first game and five hits and two runs in the second.

EVERYBODYS are sure the "hitless wonders" of the Commercial league. They have been shut out without a hit or a run in their last two games and have gone hitless for 20 innings.

SETTING new transcontinental motor records seems to be a habit these days. Leo J. Trost, of the Franklin Motor Car company, re-ceived word today that F. B. Stevens, a millionaire motorist, had reached San Francisco from New York in the remarkable time of five days, 18 hours and 30 minutes, driving a stock Marmon. This record was made un-der the auspices of the American Defence society and was checked by the A. A. A. so it can be taken as official. The new mark breaks the recent record of "Cannonball" Baker by 41 hours and 22 minutes.

the entire nine innings was Exten, who hit a hot one at Martin, the hall strikling square in the player's glove and rolling up his arm. It was scored as an error.

Bybee Gets a Hit.

Gillett put the soidlers down, one-two-three, in the third, fourth, fifth, sixth and seventh innings. In the eighth, Bybee got another hit with one gone. York half down a peach of a sacrifice and Steele really tried to make up for his three strikeouts earlier in the game, but his best was a grounder to Ealon, who threw him out at first.

Kiler opened the last of the ninth for the soldlers. He ficw out to Klineman, Debarr came shong with a clean hit to right and Bairett was safe on Lyman's error. Martin hit one to Gillett who caught Debarr at third for the second out. There was some reall excitement about this time and the Seventh hand joined in. Art Smith batted for Reardon and it was evident that "Buster" would take no chances for Smith is the star pirch hitter of the league. He drew a pass and the basew were full. Then came Gallagher and the real scrap.

SILVER CITY fight fans look for a real treat on Labor day, when Benny Cordova is to tackle Bud Anderson. Benny is a real lightweight when he is in condition and while the weights are to be 136 pounds seven hours before entering the ring, Benny will do well to enter the ring around 135 pounds if he hopes to win. Anderson has been out of the game for a long time and it is doubtful if he can make 138 pounds. If he does, he will surely take on at least six pounds before entering the ring and should have a material advantage in weight over Cordova but the fact that the latter has been boxing regularlly will be much in his favor.

AFTER panning the umpires occa-sionally, it is only fair to give them credit when credit is due and the work of both Ebbs and Lortz, on Sunday, was high class. However, more than half the fans are willing to swear that Ebbs was wrong in giving Gallagher a base on palls in the last game but, despite his hairtrigger temper, Ebbs knows the rules and the writer is inclined to believe he was right in his decision though a similar case has never come to the writer's attention in 14 years as a baseball scorer.

Woodlen was still in his playing uniform and is subject to the rules of the league—if there are any, which some doubt after Barker setting back into the game—and should be suspended for at least three weeks. His language was not the kind to be heard when women fans were present.
